

DanburyIT™

Monthly Tech Forum
"Five Steps to a Smarter Website"
Hosted by Endorse Communications

Wednesday, October 14
11:30 a.m. - 1 p.m.
River Heights Chamber Conference Room

Is your website a site for sore eyes? Or is it making your eyes sore? Even if you like your site, you'll learn how to spruce it up by making it sharp, smart and sexy - not bland, geeky or boring.

From this forum you'll be able to take away ideas to make your website more interactive and dynamic, using functionality that enhance the site while still being clean and pleasing to the eye. We'll go over basic design concepts to follow, ways to use your site to interact with your visitors, how to incorporate search engines and the importance of having fresh content. We'll also discuss ways to maintain your site through easy-to-use administrative tools.

Enjoy great food and networking, have a chance to win a door prize and learn more about today's technology, all at no cost for Chamber members!

R.S.V.P by Monday, October 12

RSVP to kschaefbauer@danburyit.com or call 651.451.3074 x104 for questions.

The Small Business Technology Forum is coordinated and managed by DanburyIT and other volunteering technology organizations.
